

Session Program

23-28 Aug 2026

FEL2026 - 42nd International Free Electron Laser Conference

SASE FEL (Contributed)

Tuesday 25 August

09:30

SASE FEL (Contributed)

Session | Location: Stanford University

09:30–09:50

Enhanced generation of single-spike hard x-ray free-electron laser pulses with lower charge and shorter electron beams in the injector

Speakers

Alexander Malyzhenkov, Eduard Prat, Gian Luca Orlandi, Sven Reiche, Tobias Weilbach

09:50–10:10

Operational experience and challenges of a CW X-ray FEL at SLAC

Speaker

Christopher Zimmer

10:10
