

## Session Program

23-28 Aug 2026

# FEL2026 - 42nd International Free Electron Laser Conference

***Seeded FEL (Invited)***

## Tuesday 25 August

10:30

### Seeded FEL (Invited)

Session | Location: Stanford University

10:30-10:55

#### **Few-femtosecond extreme-ultraviolet pulses and pulse pairs with tunable topological properties**

**Speaker**

Primož Rebernik Ribic

10:55-11:20

#### **First Lasing and Stable Operation of a Direct-Amplification Enabled Harmonic Generation Free-Electron Laser**

**Speaker**

Zheng Qi

11:20
