

Session Program

23-28 Aug 2026

FEL2026 - 42nd International Free Electron Laser Conference

Seeded FEL (Contributed)

Tuesday 25 August

11:20

Seeded FEL (Contributed)

Session | Location: Stanford University

11:20-11:36

Coherent Undulator Radiation Seeding of High-Gain Harmonic Generation

Speaker

Jenny Morgan

11:36-11:52

HXRSS at the European XFEL: Progress from SASE2 to SASE1

Speaker

Matthias Scholz

11:52-12:08

Recent development of Hard X-Ray Self-Seeding design and experiment tests for LCLS-II-HE high repetition rate operation

Speaker

Ye Hong

12:10
