

Session Program

23-28 Aug 2026

FEL2026 - 42nd International Free Electron Laser Conference

Electron Sources (Contributed)

Thursday 27 August

09:30

Electron Sources (Contributed)

Session | Location: Stanford University

09:30–09:50

An alternative method to generate CW electron beams for Hard X-ray FEL

Speaker

Nikhil Bachhawat

09:50–10:10

Upstream Photocathode Laser Tailoring for Optimized Longitudinal Phase Space in High-Brightness FELs

Speaker

HAO ZHANG

10:10
