

Session Program

23-28 Aug 2026

FEL2026 - 42nd International Free Electron Laser Conference

***Electron Diagnostics, Timing,
Synchronization, and Controls (Invited)***

Thursday 27 August

10:30

Electron Diagnostics, Timing, Synchronization, and Controls (Invited)

Session | Location: Stanford University

10:30-11:00

Transverse Electron Beam Size Diagnostics Based on Synchrotron Radiation

Speaker

Andrei Trebushinin

11:00-11:30

Absolute characterization of sub-femtosecond electron bunches in SwissFEL using a Bunch-Compressor-Monitor

Speaker

Gian Luca Orlandi

11:30
