

Session Program

23-28 Aug 2026

FEL2026 - 42nd International Free Electron Laser Conference

***Undulators and Photon Beamline
Instrumentation (Invited)***

Wednesday 26 August

08:30

Undulators and Photon Beamline Instrumentation (Invited)

Session | Location: Stanford University

08:30–08:55 **Hard x-ray attosecond metrology via split-delay autocorrelation**

Speaker

Yanwen Sun

08:55–09:20 **X-ray diagnostics for a Cavity-based XFEL**

Speaker

Dr Jan Grünert

09:20–09:40

CASPER: a Compact Arbitrary Superconducting Polarisation Emitting Radiator

Speaker

Marco Calvi

09:40
