

## Session Program

23-28 Aug 2026

# FEL2026 - 42nd International Free Electron Laser Conference

*Undulators and Photon Beamline  
Instrumentation (Contributed)*

# Wednesday 26 August

09:40

## Undulators and Photon Beamline Instrumentation (Contributed)

Session | Location: Stanford University

09:40–09:55 **Angular streaking at high repetition rate**

**Speaker**

Veronica Guo

09:55–10:10

**Automatic alignment of the High RESolution hard X-ray single shot (HIREX) spectrometer to use as a feedback system for the European XFEL beamlines**

**Speaker**

Naresh Kujala

10:10
