Introduction to pre-TM

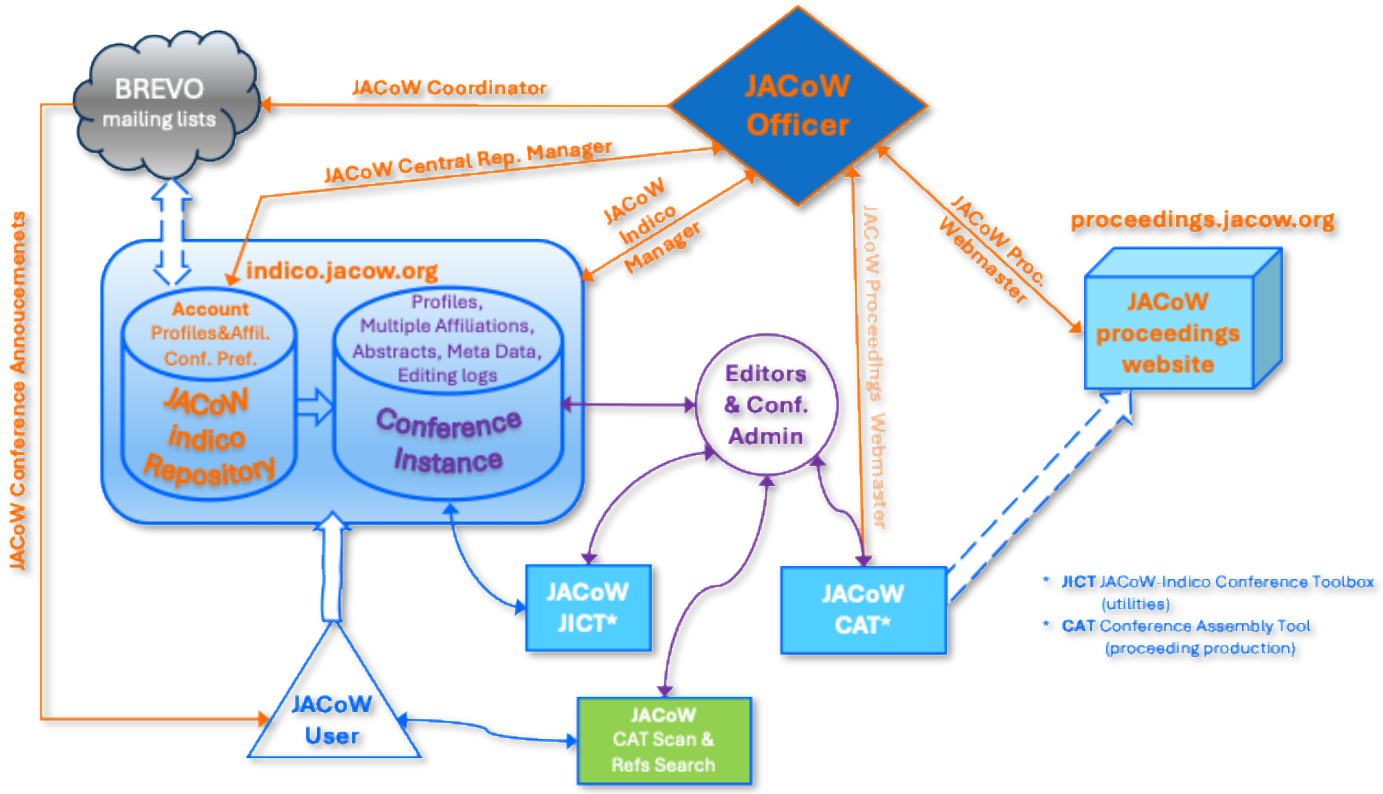

JACoW pre-Team Meeting 2026 – KEK, 19-20 Oct. 2026

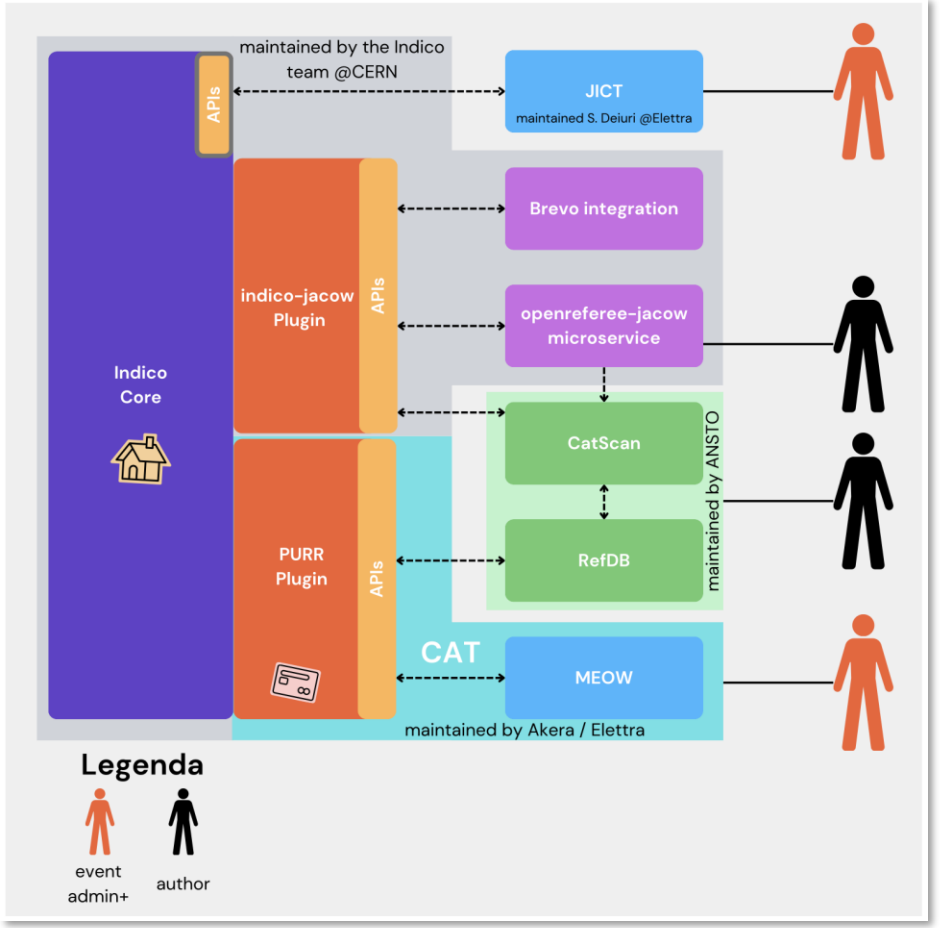

Adriana Rossi as 2025-27 JACoW Chair

Overview

- Event (conference) Management – indico.jacow
  - Registration, industrial exhibitions, student programmes, etc.
  - Management of payments of fees and social programmes
  - **Central Repository** of authors (with names, mailing address, main affiliation institutes), and mailing lists for conference series in the accelerator community.
- Event (conference) Scientific Programme Management by the Scientific Programme Committee – indico.jacow
  - Cycle of a conference contribution: from pre-conference abstract submission (with multiple affiliations per author) to the upload of contributions during the conference to the publication of the proceedings
  - Reports and tracking
  - Email utilities
  - Refereeing
- Proceedings Production and Management – JICT and CAT
  - Editing of contributions to the proceedings and production of metadata for final proceedings production
  - Automated post-conference proceedings production and publication

Joint Accelerator Conferences Website

Also known as JACoW, we are an international collaboration that publishes proceedings for accelerator conferences around the world. We also host proceedings for JACoW collaboration conferences, listed in the table below.

At-A-Glance

SERIES	CONFERENCES	PAPERS
19	304	78693

Proceedings

ABDW-e+e-Factories	BIW	FEL	MEDSI
ABDW-eCloud	COOL	HIAT	NAPAC
ABDW-ERL	Cyclotrons	IBIC	PAC
ABDW-FLS	DIPAC	ICALEPCS	PCaPAC
ABDW-HB	EBIST	ICAP	RuPAC
ABDW-HF	ECRIS	IPAC	SAP
APAC	EPAC	LINAC	SRF

This Month in JACoW | October 2026

Conference season may be winding down, but the work continues! ...more

online!

What/who makes things work

- **JACoW Board of Directors (including Coordinator)** – mail to bod@jacow.org — CERN, ESS, TRIUMF (coordinator); GSI (retiree), LANL, SLRI, INFN
- **WG1 Templates** – mail to template@jacow.org — GSI (retiree), ... ------
- **WG2 Documentation & Wiki** – mail to content@jacow.org — ORNL, GSI, with ANSTO, ANL, ...
- **WG3 IT tools** — ELETTRA, ESS, INFN, CERN, IJCLAB?
- **WG4 Central Repository Manager** – mail to repositorymanager@jacow.org — INFN, --China
- **WG5 Proceeding publication** – mail to proceedings@jacow.org — ELETTRA
- **WG6 JACoW international collaboration** – contact Chairperson chair@jacow.org — CERN, ESS, INFN

Anyone from audience wants to join ? 😉

Agenda

WG1. Templates - presentation and discussion

- Existing Latex template and for comparison with Word
- Cleaning templates to prepare for personalised abstract in JICT:
  - With Author lists, Title and Abstract
- Discussion on how to make it more self contained, with all infos in the same place, more consistent, same info on references formatting everywhere
- Why allowing for bibtex AND bibitem
- Define release cycle (not at conferences!!) and how to enforce it – At JTM25 ….
  - Agreed to issue new template versions with presentation at BoD in January and tested version release no later than March
    - Tests including on dummy conference to verify that pdf generated compliant with standard

Agenda

WG4. Central Repository (about 10000 accelerator scientists across the world)

- Authors (with names, mailing address, main affiliation institutes), and mailing lists for conference series in the accelerator community
- Dynamic mailing listing now in place with Brevo
- To ensure that an author is uniquely identifiable and that his/her articles can be easily found, thereby also increasing the impact factor of JACoW publications:
  - Integration of ROR, ORCID (but industry or some lab not there and naming not always unique)
  - Full names and native language to the JACoW-indico profiles

Agenda

- **Report on CAT development 2026 (WG3. IT Tools)**
- **JACoW Metadata and visibility on the web (WG3. IT Tools)**
  - Metadata for external accessibility
  - Access from AI
- **Report on JACoW activities and KEK services**
- **JACoW Collaboration**
- **Light Peer Review at IPAC**
  - What in place and how it interfaces with Indico
  - What is left to be done
  - Who wants to do it and how
- **Working groups (tomorrow)**
  - Conference announcements (WP2)
  - CatScan and RefDB (WP3)
  - AOB ?

Wish you all a very fruitful meeting
