16TH INTERNATIONAL BEAM INSTRUMENTATION CONFERENCE

A message from the Exhibitor Chair

Wasupol Rungtanapirom

IBIC 2027 LOC Chai, Exhibition and Sponsorship Chair

Dear colleagues and industry partners,

It is our great pleasure to invite you to the 16th International Beam Instrumentation Conference, **IBIC 2027**, in Chiang Mai, Thailand, from 6 to 10 September 2027. The conference is hosted by the Synchrotron Light Research Institute (SLRI), Thailand.

IBIC brings together the world's experts in beam diagnostics and measurement for particle accelerators. Alongside tutorials, invited talks and poster sessions, the **industry exhibition** gives manufacturers direct time with the physicists and engineers who specify and buy instrumentation.

At IBIC 2025 in Liverpool, **more than 200 delegates** attended and posters were presented alongside the exhibition. We invite you to meet this community in person in Chiang Mai.

Chiang Mai is a **city of culture and nature**. Founded in 1296 as the capital of the Lanna Kingdom, it is home to more than 300 temples, and the forested mountains of Doi Suthep rise at its edge.

We look forward to welcoming you to Chiang Mai.

ABOUT THE CONFERENCE

IBIC 2027 brings the world's beam instrumentation community to Chiang Mai

Where physics meets industry

Every year, IBIC puts **accelerator physicists and instrument manufacturers** in the same room. Researchers bring new diagnostic techniques, industry brings the hardware to make them real, and the exchange between them **shapes the next generation of beam instruments**.

In 2027, IBIC comes to Asia & Australia, giving exhibitors direct access to scientists and engineers from the region's accelerator labs and research facilities.
