

## **SPMS Scientific Programme Management Overview, Todd Satogata**

*Wednesday, 15 December 2021 16:00 (2 hours)*

This is a compressed introduction to SPMS setup and key tasks. Longer introductory presentations and resources are linked to in the references at the end of this page that cover the material in much more detail. Complex software like SPMS is best learned by following the existing documentation in the Wiki SPMS Manual and trying out tasks yourself, consulting with experts (Christine Petit-Jean-Genaz (CERN, ret.), Todd Satogata (Jefferson Lab)) when you have questions.

**Primary author:** SATOGATA, Todd (Thomas Jefferson National Accelerator Facility)

**Presenter:** SATOGATA, Todd (Thomas Jefferson National Accelerator Facility)

**Session Classification:** Wednesday, 15 December afternoon post-coffee parallel session
