## Designing the spreaders and splitters for the FFA@CEBAF energy upgrade

*Monday, 8 May 2023 16:30 (2 hours)*

The FFA@CEBAF energy upgrade study aims to approximately double the final energy of the electron beam at the Continuous Electron Beam Accelerator Facility (CEBAF). It will do this by replacing the highest-energy recirculating arcs with fixed-field alternating gradient (FFA) arcs, allowing for several more passes to circulate through the machine. This upgrade necessitates the re-design of the vertical spreader sections, which separate each pass into different recirculation arcs. Additionally, the FFA arcs will need horizontal splitter lines to correct for time of flight and R56. This work will present the current state of the spreader re-design and splitter design.

### Funding Agency

Authored by Jefferson Science Associates, LLC under U.S. DOE Contract DE-AC05-06OR23177, Brookhaven Science Associates, LLC, Contract DE-SC0012704, and UT-Battelle, LLC, contract DE-AC05-00OR22725.

### Footnotes

Some research described in this work was conducted under the Laboratory Directed Research and Development Program at Thomas Jefferson National Accelerator Facility for the U.S. Department of Energy.

### I have read and accept the Privacy Policy Statement

Yes

**Primary author:** BODENSTEIN, Ryan (Thomas Jefferson National Accelerator Facility)

**Co-authors:** BOGACZ, Alex (Thomas Jefferson National Accelerator Facility); COXE, Alexander (Jefferson Lab); SERYL, Andrei (Thomas Jefferson National Accelerator Facility); GAMAGE, Bamunuvita (Thomas Jefferson National Accelerator Facility); TRBOJEVIC, Dejan (Brookhaven National Laboratory); KHAN, Donish (Thomas Jefferson National Accelerator Facility); BERG, J. (Brookhaven National Laboratory); BENESCH, Jay (Thomas Jefferson National Accelerator Facility); PRICE, Katheryne (Thomas Jefferson National Accelerator Facility); DEITRICK, Kirsten (Thomas Jefferson National Accelerator Facility); BROOKS, Stephen (Brookhaven National Laboratory); MOROZOV, Vasiliy (Oak Ridge National Laboratory)

**Presenter:** BODENSTEIN, Ryan (Thomas Jefferson National Accelerator Facility)

**Session Classification:** Monday Poster Session

**Track Classification:** MC1: Colliders and other Particle Physics Accelerators: MC1.A12: FFA
