

Contribution ID: 329 Contribution code: MOYD1

Type: **Invited Oral Presentation**

## **LCLS-II commissioning results**

*Monday, 8 May 2023 11:10 (30 minutes)*

LCLS-2 should be completed in 2022, producing first light from its new SC linac. The status of beam commissioning and the performance of the new SC CW linac should be shown in detail. Performance should be compared with the design values and an outlook to further steps should be shown.
