Invited Talk - NAPAC'2022 Reflections and Lessons Learned

Tuesday, 8 November 2022 11:10 (20 minutes)

Post COVID-19 has still not been an easy undertaking, with those first conferences facing many challenges as we converge back to a normal which is not always what we had before. NAPAC'22 was one such conference which faced large hurdles in the organisation, attracting delegates, and staffing to name but a few. We invite the speaker to give an account in reflection of these difficulties and the lessons learnt.
