Processing Slides and Embedding Animations

Thursday, 10 November 2022 09:00 (1h 30m)

A large number of conference series are now routinely achieving oral presentation transparencies as part of the proceedings. This talk will look at the process which has been established with the SPMS instance to manage this process, and issues surrounding presentations utilising animations and videos and how these are embedded in the pdf file.

Presenter: BUTTON, David (Australian Nuclear Science and Technology Organisation)

Session Classification: Thursday Morning Session
