

FEL2024 - 41st International Free Electron Laser Conference

Wednesday 21 August 2024

Novel acceleration and FEL concepts: Session-8 (14:30 - 16:20)

-Conveners: Hideaki Ohgaki

time	[id] title	presenter
14:30	[187] Plasma accelerating modules developments for the EuPRAXIA FEL user facility	BIAGIONI, Angelo
15:00	[257] Reduction of the electron beam divergence of laser wakefield-accelerators by integrated plasma lenses	Dr IRMAN, Arie
15:30	[198] Energy and brightness-boosted electron beams from plasma-based accelerators	Dr HABIB, A. Fahim
15:55	[225] Experimental efforts towards non-collinear superradiant Compton scattering	SCHAAP, Brian
