

# FEL2024 - 41st International Free Electron Laser Conference

## Monday 19 August 2024

### FEL Prize Talks (16:50 - 18:25)

-Conveners: Bruce Carlsten

time	[id] title	presenter
16:50	[283] Advancements in Light Source Research with the Duke FEL	WU, Ying
17:15	[274] A one-dimensional model of superradiant spike saturation	MCNEIL, Brian
17:40	[304] Some techniques for radiation generation, diagnostics and simulation I find interesting	SERKEZ, Svitozar
17:55	[259] Beam Shaping for Advanced Operation Modes in Free-Electron Lasers	ZHANG, Zhen
18:10	[286] Novel operations of high-repetition-rate X-ray free-electron lasers.	YAN, Jiawei
