

IBIC2024 - 13th International Beam Instrumentation Conference

Thursday, 12 September 2024

THC: Longitudinal Diagnostics and Synchronization: THCI (Invited Oral) - China Hall 2 (13:30 - 14:00)

-Conveners: Marco Veronese

time	[id] title	presenter
13:30	[33] Approaching an optimum time resolution for synchroscan streak-camera measurements with visible synchrotron light	MARONGIU, Marco

THC: Longitudinal Diagnostics and Synchronization: THCC (Contributed Oral) - China Hall 2 (14:00 - 14:40)

-Conveners: Marco Veronese

time	[id] title	presenter
14:00	[62] Direct measurement of the longitudinal emittance for a proton beam at exit of a radio frequency quadrupole	ZHANG, Yong
14:20	[84] Absolute Characterization of sub-fs Electron Bunch-Length in SwissFEL using a Bunch-Compressor Monitor	ORLANDI, Gian Luca
