## Development of FFA at Accelerator and Beam Applied Science of Kyushu University

*Tuesday 3 June 2025 16:00 (2 hours)*

Center for Accelerator and Beam Applied Science of Kyushu University has been established to promote activities in scientific, medical, educational and engineering fields at Kyushu University. An accelerator facility, consist mainly of a 10 MeV proton cyclotron, 8 MeV tandem accelerator and of 150 MeV FFA, has been constructed in the center. In this paper, status of the hardware developments and results of the beam commissioning of the FFA in Kyushu University is described.

### Footnotes

### Paper preparation format
