

Session Program

Oct 19 - 24, 2025

**HB2025 - the 71st ICFA Advanced Beam
Dynamics workshop on High-Intensity and High-
Brightness Hadron Beams**

THCBB WGE contributed oral

Thu, October 23

11:30 AM

THCBB WGE contributed oral: THCBB

Session | **Location:** conference center, room B

11:30 – 11:50 AM

SOFT: Single-Optics 4D phase space Tomography via double-rotated 2D measurements

Speaker

Binghui Ma

11:50 AM – 12:10 PM

Update on ESS icBLM system testing

Speaker

Viatcheslav Grishin

12:10 – 12:30 PM

Status and future of the Beam Gas Curtain: a non-invasive profile and emittance monitor for high-intensity hadron machines.

Speaker

Hao Zhang

12:30 PM
