

Session Program

27-31 Oct 2025

CYC2025 - International Conference on Cyclotrons and their Applications (Chengdu)

FFAG and New Projects (6)

InterContinental Chengdu Global Center
Chengdu, China

Thursday 30 October

13:30

FFAG and New Projects (6): Session THC

Session | **Location:** InterContinental Chengdu Global Center, Chengdu, China

13:30–14:00

Beam stacking experiments at KURNS, Japan & ISIS, UK

Speaker

Dr Jean-Baptiste Lagrange

14:00–14:20

The start-to-end beam dynamics simulation study and its application in the High-Intensity Cyclotron of CIAE

Speaker

天 旬

14:20–14:40

A novel cyclotron concept for isotope production and proton therapy

Speaker

Oleg Karamyshev

14:40
